

PERFECT GRIP! PERFECT SWING!

V-GRIP™ WOOD BATS

All of our wood bats are made from the finest billets. Each billet is hand selected and inspected by a Certified National Lumber Inspector providing the best quality hard wood billets on the market.

MAPLE & ASH

- > **COMPACT DESIGN** – Short, heavy design promotes proper timing.
- > **BLACK POST CATALYZED FINISH** – For professional look and feel.
- > **ORIGINALLY DESIGNED** – For the Professional level.

EXPLOSIVE T.N.T. POWERLOADSM

The patented V-Grip™ technology is the concept and design of baseball legend, Don Mattingly, whose passion to teach the best hitting techniques that start with the proper grip. The V-Grip™ instantly corrects the most common problem found in hitters – the position of the hands around the handle. The patented V-Shaped handle aligns the knocking knuckles, allowing a comfortable and proper positioning of the bat away from the palm and into the fingertips. The benefit of this superior grip-through technology is that it optimizes a hitter's quickness and generates more power and control through the strike zone.
